

AMEGA GLOBAL LLC

Building Wealth through Wellness

To our Amegans,

We are aware that there are others who are now trying to capitalize on the global success of our brand and our existing markets. You may come across products that are 'copies/knock offs' of our existing brands and products etc – and whatever terminology is used – it basically means theft.

We have engaged top international lawyers, on behalf of Amega Global LLC, who are currently building strong cases against all those who infringe our Patents, Trademarks and Copyrights. In order to build a case we are working closely with them - supplying them with all the necessary, confidential, documentation including facts, dates, figures, patents, and legal documents etc.

We are, as a reputable company, bound by law to deal with this matter legally, correctly and within the boundaries of the law (and all its apparent confines and time delays). Be assured that all who steal and/or illegally use our Company Name, trademarks, marketing and promotional materials, copy and pirate our products etc will be dealt with very firmly through the law courts, by Amega Global LLC.

You have our professional guarantees as an international reputable business built up over a 5 year period that we are the legal owners of these products and trademarks. We have invested millions into our company, brands, patents, trademarks and products etc to give us all strong business foundations for the future and a global presence, none of which could have been done without global transparency, honesty, integrity and a belief in what we are doing is for the higher good for all mankind.

Whilst others may copy our Brand, logos and Products they cannot copy our AMized[®] Fusion Technology and this is what makes Amega the Brand Leader it is today. AMized[®] Fusion Technology is a proprietary process, developed with over 25 years of research and development, using the principles of Quantum Physics where products are energized to resonate at Zero Point Field to help the body achieve homeostasis condition.

Those who buy the pirated products will be buying something of little or no value...possibly an empty shell, a false dream and therefore we strongly encourage any Business Associate(s) and Leaders who have information regarding any person(s) that are involved in illegal activities to inform us of any illegal operations, false websites, rogue suppliers, alleged manufacturers of products using our Brand name, logos etc so that we can pursue this matter fully and legally.

We thank you for bringing this matter to our attention.

Yours very sincerely

For, and on behalf of, Amega Global LLC Management
